Alcohol: 12.8%

Production: 567 Cases

### Tasting Notes

The 2022 rose is a beautifully crafted wine that showcases the best of northern California's vineyards. It is a perfect wine to enjoy on a warm summer day, with its bright and refreshing flavors that are sure to delight any palate. The wine is a lively and vibrant pink in color, with a slight orange hue around the rim. On the nose, this rose is very aromatic and floral, with notes of fresh strawberries, pear, raspberry, and a refreshing minerality that makes it very inviting. The wine is well-balanced, with good acidity that provides a crisp and refreshing mouthfeel. The blend of six varieties - Pinot Noir, Zinfandel, Petite Sirah, Carignane, Mataro, and Alicante Bouschet - creates a complex and layered flavor profile. The wine is fermented in a stainless steel tank and creates a clean and crisp finish, leaving a refreshing and lingering impression of the wine's bright fruit flavors and crisp acidity.

### Winemaking Notes

We keep the alcohol low, the acid high, and the color as light as possible to make a Rose that is drinkable and fresh as possible. Serve chilled, and young while it still has vibrant acidity and light color.
